

ECOLOGY OF POWER: HOW SYSTEMS GROW & STAGNATE

Understanding the three dimensions that shape the collective good.

Visible Power (The Canopy)

Goal: Institutional Reform

The formal rules, structures, authorities, and laws that dictate by whom, where, when, and how decisions are made. It's what we can see: the board vote, policy change, or public meeting.

Hidden Power (The Roots)

Goal: Strategic Re-Routing

Behind the scenes influence. This operates through unspoken norms and personal agendas that obscure the location of power and decision-making process from the public.

Invisible Power (The Atmosphere)

Goal: Cultural Re-Seeding

This dictates what is even considered possible, shaping our sense of 'normal.' It operates through the stories that people in power tell until they become societal norms, which we then adopt as our own personal beliefs.

Are your dynamics rooted or rotting?
